Part 13 (A Garden Tour around Maleny and District)

3

The following was prepared in 1986-87-88 and seems to have been available to all residents and visitors in Maleny. It reflects a very interesting time when a large number of gardens in the town were made available for inspection providing that the **GARDEN OPEN SIGN WAS OUTSIDE**.

This copy of the booklet was provided courtesy of Nancy Baker

ACKNOWLEDGEMENTS

Our grateful thanks go to Stuart Spencer for the cover and inside illustrations. His work can be viewed up to June 1988 by ringing Maleny 942538 and thereafter 942554.

To Glenys McLean of Glenmac Secretarial Services for her patience in typesetting this booklet.

To Maleny Printers who have produced this booklet with rapid speed and efficiency.

And to all the advertisers who have made a small dream come to fruition. Please do give them all your support. We can honestly recommend them most highly.

INTRODUCTION

This is a guide to the many beautiful gardens, both old and new, small and large, which are in and around the township of Maleny. Whilst we have endeavoured to cover every street and house, it is quite possible that we have overlooked some gardens and we apologise humbly to the owners and visitors alike.

It must be stressed that all the gardens are private home gardens and not show gardens and that we have mainly chosen gardens that can be seen in part or wholly from the road. In some cases the owners have kindly consented to open their gardens for inspection from time to time and this will be indicated by a "Garden Open" sign outside the property or mentioned in this guide as being open for inspection. In some streets there are several gardens which should be seen and we have only picked out the more special ones for mention. We have tried to suggest some short tours so that several gardens can be viewed and also some of the truly magnificent countryside which is, after all, gardening on a super scale.

We have also mentioned some points of interest such as suitable picnic places, eateries, places to stay, etc. We do sincerely hope that this guide will give everyone a great deal of pleasure and we do entreat our visitors to drive with the utmost care as, apart from safety, it is quite impossible to see the gardens if you drive fast.

One last point, please do not be disappointed if you find that some of the gardens are not as described, obviously with home gardens it is not possible to have them perfect 12 months of the year. In this climate and with our grass, it grows an inch a day, after a prolonged wet period expect weeds and long grass!

Many of the trees and shrubs and plants you will see can be purchased locally from our excellent nurseries and they will give expert advice.

Jennifer Treherne-Thomas.

The Author of this booklet was Jennifer Treherne Thomas who is referenced in the Maleny Garden Club Minutes of May 1988.

Mr & Mrs Treherne Thomas arrived and Mrs Jenny Treherne spoke about the famous Sissinghurst Garden in Kent which they visited. She spoke of famous lady gardeners including Vita Sackville West & Edna Walling (of Australia). She gave a very stimulating talk on ideas for simple garden design and her suggestions for concealing the harsh lines of many brick homes and making interesting small vistas. We all enjoyed hearing what she had to say and this produced discussion amongst our members. The Treherne Thomas's stayed on to have a cup of tea with us and look over or display of flowers and a walk around the garden.

The Treherne Thomas's offered their garden for our next meeting which will be held on Monday 27th June at 12 noon at "The Old Farm House" Baroon Pocket Road. It is not being held on the Tuesday as there is a bus trip that day.

Try and see the Landsborough Museum before beginning the climb. Driving up the Range to Maleny from Landsborough on the right-hand side the Ocean View Caravan Park, tourists most welcome. On the left-hand side, Yoorooga Gallery and Tea Rooms where you can buy beautiful Aboriginal artefacts, pottery and clothes and enjoy morning and afternoon tea and light lunches overlooking the Sunshine Coast. On the right-hand side a lookout with picnic tables.

The gateway to the range is formed by a large house and pretty garden on the left-hand side, the attractive premises of Cairncross Real Estate, the Coach House where you can lunch and dine and also enjoy morning and afternoon teas and the Loggers Rest Motel which offers modern accommodation. The Coach House has been most attractively set out and displays many native trees and shrubs. Carrying on to Maleny there is a right-hand turn which goes to Montville and a short way along a series of "businesses", a lovely house offering bed and breakfast, a Tea Garden serving light lunches, morning and afternoon teas, aptly named The Fig Tree, as they have a huge fig tree set in their sweet gardens. Opposite is the Maleny Hills Motel, another pleasant spot to lay your weary heads. On the corner of Sinclairs Lane, the district's only private house bed and breakfast offering delightful accommodation in a family setting. Further down Sinclairs Lane, the High Tor, a lovely place set in pretty gardens, open to people staying or using the restaurant, the Bamboo Garden is quite extraordinary and is used for weddings.

Returning to the Landsborough to Maleny Road to Maleny on the right-hand side, at Fryers Creek, this garden can be fully observed from the road. A large area of beautifully mown grass with plantings of shrubs and trees, a modern type, no nonsense garden which offsets the large modern house.

Continuing on to Maleny you will note two nice gardens on the left-hand side, one which is difficult to see and the second, Benhaven, very well kept. Further along on the left-hand side corner of Thynne Court a brand new garden in the making, trees and shrubs all well set out and should be one to watch, and down into Thynne Court another couple of very well kept gardens.

BEN BRYCE PARK & MALENY RETIREMENT HOME

Delightful small private park with lake and gazebo, around which are grouped the retirement units. Each unit garden is beautifully kept and individually landscaped with plenty of colourful flowers and shrubs. A unique Retirement Home, 3 wonderful gardeners live here and it shows. Open when sign is out for closer inspection.

MALENY HIGH SCHOOL

Mass plantings of trees and shrubs for the new High School, the landscaping will enhance the school enormously and the modern buildings will blend very quickly into the magnificent site.

Near the town pool on the right-hand side, a pretty cottage garden.

Three delightful cottage type gardens can be observed opposite the Maleny Hotel on the left-hand side running upwards from the road and displaying typical cottage garden plants and shrubs.

The plantings at the Maleny Primary School on the right-hand side are most attractive and are home to 2 old gravestones.

Behind the Hotel the Maleny Bowls Club has a fine border on its right-hand side boundary and behind this a well kept private garden with a large glasshouse. This garden fronts onto the main road and has a most attractive garden at the front and side of the immaculate house. Open when sign is out. The area around the Hotel is also most attractive with fine trees and mown grass. Pub meals here and an excellent Bottle Shop. Wonderful parrots in the trees at rear of Hotel.

CEDAR STREET & CEDAR GROVE (TOP END OF THE TOWN)

Turning into Cedar Grove from Cedar Street two nice gardens, one less than a year old, full of colour and cottage garden plants and a super vegetable garden, and facing on the opposite corner No.33, a most attractive cottage style garden.

Further down Cedar Street on the left-hand side going south an outstanding garden which can really be viewed better from the bottom road, Cedar Street. There is a magnificent fig tree which is underplanted with literally hundreds of "Busy Lizzies". The main garden has been set out in a most original cottage garden style and is always a picture.

This type of garden is not often seen nowadays and it is of particular interest that Maleny contains at least 3 gardens in this delightful style. The next door gardens are always full of colour.

MYRTLE STREET/MIVA STREET

A very original garden with palms and trees running down to a creek, totally suited to the fine old house. People restoring old gardens or creating period gardens should be most interested in this garden. A pretty garden adjoining at end of Miva Street.

MIVA STREET (TOP END)

Adjoining gardens, both delightful, No.15 and No.17. Cottage gardens, full of colour setting off the homes perfectly. No.15 Champion Garden 1987, Maleny Garden Competition, super vegies, fruit and flowers. No.14. A new garden with bright annual display and beautifully kept.

All open when sign is out.

CORAL STREET (IN TOWN)

Two nice gardens here, one on the left adjacent to the Co-op., ranch-style house and garden, and the other on the right next door to the Laundrette, very well kept cottage garden.

Turning left towards the Showground an attractive garden on the right just before crossing Obi Obi Creek, nice picnic spots down by the creek and a swimming hole, (turn into the Showground and keep left).

Follow the road out of Maleny which is Stanley River Road, passing Mac Farms, where very large Macadamia trees can be seen. On the left into Centenary Drive No.39, a modern house and garden planned to give excellent privacy, very attractive with steep bank down to creek. Open when sign is out.

No.20, lovely trees and lawns setting off delightful Cedar house.

No.16. The Homestead, a lovely garden which displays an enormous amount of tender loving care, a sure winner in garden competitions, champion many times over. Open when sign is out.

Opposite the turn into Walkers Drive an immaculate modern garden with outstanding use of foliage plants. Another prize winning garden. Open when sign is out. Look to your left and into Azalea Court where there is a lovely looking property.

Return by Gibson Road , Lots 6 & 9 where there is a beautiful mixture of plants for foliage and flowers along their frontages. At No.6 you can view a fascinating display of Toy Soldiers for which there is no charge.

Back into Stanley River Road on the left.

The Maleny Colliery, well kept garden offsetting lovely old home; follow onto Wootha through lovely dairy country on the left-hand side. Two nice new gardens and one old garden, on the right in Wootha two lovely gardens, one setting off a magnificent pink Queenslander.

Continue past Reesville Road and opposite Policemans Spur Road; a brick home on the left which is the Maleny Fern Nursery, a fascinating place where Erica sells a huge selection of different and rare ferns and begonias. Call in and meet her, a delightful lady and most knowledgeable. Turn down Policemans Spur Road and on the left a lovely, large, country garden maintained by delightful ladies who have created an almost English style garden, open when "Garden Open" sign is displayed. Continue down road and on the same side from July 1st 1988 the Daylily Nursery in its new location. A very exciting project, 5 acres of beautiful display gardens - Don't miss it. Turn shortly left into Reesville Road.

REESVILLE ROAD

Turning off the Stanley River Road **left** into Reesville Road magnificent valley views to the west and beautiful country with large ponds on the right.

Must be one of the most beautiful places on earth! Just before Doyles Road a small new garden is being developed around a most charming Edwardian Queensland house, once again just the right type of garden for the style of house.

Continuing down Reesville Road some large ponds and at times it is possible to see deer browsing in a most beautiful park-like property. Then the road passes under an avenue of large gum trees with ferns growing along the banks.

As the road turns right there is a most unusual antique shop, "Manfreds". Call in and view his wonderful work.

Further along on the left Solothurn Estate, where you can stay in holiday cottages and enjoy more magnificent scenery and also ride their well-trained horses. Huge pool and excellent hospitality and gardens open for inspection.

REESVILLE MEADOWS

On both corners turning into this new Estate two more attractive gardens, one very new, both beautifully kept, the other gardens most attractively landscaped and again both gardens most appropriate to the differing styles of modern houses.

Continue south on the Reesville Road and on the right HOWELLS KNOB which is a MUST for all visitors. Drive up past the quarry and at the top a panoramic view of the whole area, from the Glasshouse Mountains, over the Sunshine Coast and all the Hinterland. There is a picnic shed here, although sadly missing its tables!

Continue to the Witta Road into Maleny by MACADAMIA STREET

On the right No.47, another of the original cottage style gardens, a wonderful garden full of interest and whimsy, beautifully kept. 45 is also a well-manicured garden.

61 also on the right is very appealing, giving its house wonderful privacy from the road.

No.5 is quite different in style once again setting off the house perfectly.

On the opposite side of the road there is a number of delightful gardens, always colourful and well kept.

BAROON POCKET ROAD

Following the North Maleny Road, head out towards the east and follow signs to Baroon Pocket. On the North Maleny Road there is a small cottage garden which is always full of colour and has a marvellous Yucca outside which displays a magnificent flower in late summer.

THE OLD FARM HOUSE

A combination of an old cottage garden and a newer, English style garden, complete with croquet lawn and duck pond. The gardens are always full of colour with many interesting plants and combinations. There are 2 herbaceous borders, a bower, gazebo and shrubberies. A special animal garden is being developed and also a "Potager" vegetable garden.

Visitors welcome when the flag is flying!

Continue down to dam site, where in the near future there will be picnic facilities, etc. by the new dam which should be completed by July 1988.

Returning to Maleny turn left into Burgum Road for Beechworth, on the right, a most attractive garden full of thoughtful design. Spring is especially colourful with azaleas, rhododendrons and camellias, all most beautifully manicured. Fuchsias and many interesting plant combinations throughout the year. Open when sign is out. Continue on for

VILLAGE GREEN ACRES

Nadi Lane

This area was first selected in 1880 by the Simpson family. The new estate shows the best in rural subdivision with each purchaser being supplied with 60 native trees, shrubs or hedging plants.

On entering the estate there is a charming, white colonial-style house with a nicely kept garden which blends beautifully with the magnificent country.

Continue down Nadi Lane where there are several new gardens with plantings of trees and shrubs and well mown lawns, complimenting the modern colonial-style houses. Wonderful views across to the Montville Road and over the Sunshine Coast.

TAMARIND STREET

Plenty of well kept gardens here, No.75 is of interest as the back garden has been developed by the owner in the style of Edna Walling (the great Australian garden designer) on a steep slope. On the road side she has landscaped the site with native trees and wild native violets. The whole garden sets off the stone cottage perfectly.

No.71. Lovely garden surrounding a modern home which enables it to blend in with the surrounding houses very well.

Both above gardens open when sign is out.

No.65. A delightful Queenslander, beautifully restored.

No.46. This garden was initially developed about 6 years ago by a previous owner and shows what can be done on a smallish town block with trees and shrubs, the whole effect is delightful.

The whole street is immaculate and would surely win a first prize for the best kept street in any Tidy Towns competition.

TEAK STREET

Going out of Maleny to North Maleny and Baroon Pocket Dam, going up a very steep hill on the left a high stone wall over which can be observed a lovely garden, always looks so pretty.

Before this on the corner of Teak and Flame Street a most interesting garden full of Papyrus, Elephants Ears, Lilies and a huge Cactus.

CORNER OF WATTLE & CHERRY STREETS a really wonderful garden, a footpath garden to beat all footpath gardens! Must be seen to be believed. A nice garden opposite also.

IN TOWN

Picnic tables in Tesch Park on the creek and also in the main street a small park next door to the Q.A.T.B. with tables and playground. The Post Office is most attractively set out and further up on the left-hand side the Police Station, with a pretty garden and a most scenic lockup! No.47 Maple Street a lovely garden.

Plenty to see and do in Maleny. The excellent Darcy's Cafe, most attractive, open for lunch, morning and afternoon teas, and dinner Friday and Saturday nights. Opposite, the Maleny Guest House, a lovely old house which has been beautifully restored, with a pretty garden, where you can stay in great comfort. A fascinating antiques shop, Steve Lidbury's Antiques, a treasure house. The Maleny Garden Centre where Neil has a full range of plants, trees and shrubs and can give expert advice. Plenty of excellent shops, garages and all that you may need. Nagy's is open 365 days of the year for petrol, food and incidentals of every description. Wilson's Garage open Sunday a.m. as well as all through the week for petrol, etc. Laundrette in Coral Street, several Real Estate Agents.

WITTA TOUR

Take Kenilworth Road from Maleny towards Witta. On right-hand side a nice garden at Glen Brialyn with flagpole. Further along on right-hand side a most attractive black and white house with secluded gardens. On the left-hand side a dark red mail box where there is an outstanding garden, this is a MUST to see, a long driveway up to the house flanked by beautiful gardens, lawns, trees and flowers, but NOT open for inspection. Several well kept gardens in this small area.

Further along on the right-hand side a fine avenue of plane trees and as the road bends some fine gardens at Avalon and Windarra. When "Garden Open" sign is displayed the Wilson's garden which is approached by the driveway through the avenue of trees is open, a very attractive garden, lovely in the Spring.

Continue towards Witta and turn right into Witta Road which is signpost to Matilda Depot. As the road bends around to the right look backwards on your right at the Marriage Celebrant's house and there is a fine colourful display. A nice cottage garden at Matilda's Petrol. Follow signpost to tennis courts, pretty timber house with lovely cottage garden on left-hand side. Very well kept gardens all along this road, interesting new garden at The Hermitage. Also on left-hand side a lovely property, a really charming garden. This garden is a MUST to see and is open to visitors when sign is out. On the right-hand side an interesting old cemetery. This whole area is Witta.

Follow on to Cookes Road, on the left a well kept modern garden, No.6 a charming cottage with lawns and flowers, opposite the turn to Teutoberg Gardens another two nice gardens. Left into Ravensberg and a garden full of shrubs, trees and water, very attractive. Open when sign is out. On corner of Teutoberg and Ravensberg a new garden. Lot 7 Teutoberg a large garden, nicely landscaped with many native trees and shrubs and with a lovely water garden, another beautiful water garden on the left corner of Teutoberg and Shultz Road, both these gardens are outstanding.

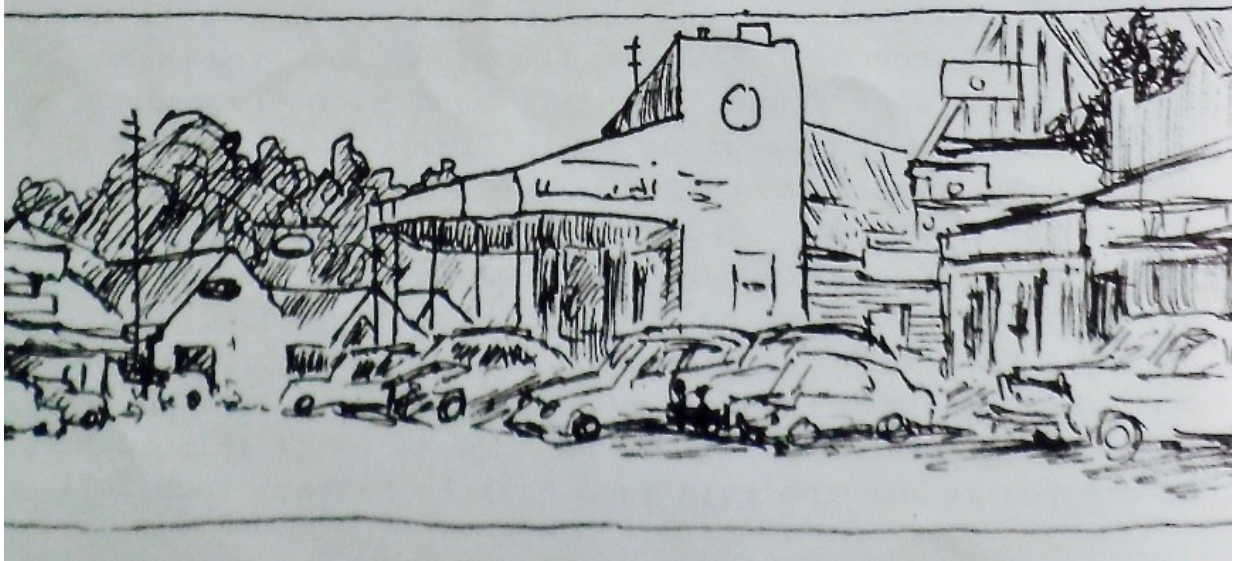

Take a glance at the Witta Glen Pony Stud as you pass, quite enchanting and beautiful ponies. Magnificent views to the north-west. After the pony stud the road takes a quite sharp turn to the left and on the right is a lovely lookout, "The Obi Lookout", well worth the walk up to it and a lovely picnic spot, very badly signed at present. Take signpost to Curramore on right-hand side and on right J.R. & T.L. Knight's lovely house and garden with other well kept gardens all round. Retrace steps, unless you wish to explore! and bear right. On left-hand side Shenandoah, a lovely house with fine stone walls, lovely garden which can really only be seen from the opposite side of lake. From the Shenandoah side look across the lake where there is a new house with a most promising looking new garden being established. Continuing along the road heading back to Maleny a huge stand of Bamboo on the left and further along a charming house with a garden which is being developed and should be outstanding. Open when sign is out. This is just before you rejoin the main road back to Maleny, turn left.

On the right a pretty border then shortly turn left into Berganns Road which has a sign to The Range Country Garden Nursery, open when sign is out. Here Jim and Phyllis Fisk have developed a lovely nursery with a large garden to walk around, and where all the trees and shrubs are labelled so you can see how trees, etc. will develop, open every day except Mondays. Large range of plants, trees, shrubs, etc. for sale. Delightful welcome always here.

Return to Maleny, on the left the Witta Store open all day for petrol, eats, etc., a most attractive building with fine brick wall underplanted with green and gold plants and the front of the store planted up with colourful plants.

Turn left beside the store and in Gumland Drive there is a lovely garden on the left, where the owner is developing a quite special cottage garden, old roses, lavender, excellent use of different plants, lovely arches and full of imaginative ideas. Open for inspection when sign is out.

Return to the main road and back to Maleny. On the left-hand side there is a most unusual goose farm, marvellous lawn mowers! Glenfern Goose Farm will supply geese of varying breeds.

MOUNTAIN VIEW ROAD

Turning east into Mountain View Road on the left a large house and garden, La Paisible, open for inspection at any time, manicured lawns and landscaped so that the house has uninterrupted views of the magnificent Glasshouse Mountains. If you like Tibouchinas take a look at the ones here. Fascinating views all along here. The Harrisons have a lovely garden, open for inspection when the "Garden Open" sign is displayed. This is an outstanding garden developed on a sloping site with magnificent views. Terraces with masses of shrubs and trees, bees, chickens, fruit and vegies. A haven for birds and people alike.

The Music Teacher's house is charming, the original Maleny Post Office, with a 100 year old pear tree. The Jones' and Dingle's gardens both quite lovely and obviously much thought put into them. Open when the sign is out. Wonderful conifers on the left-hand side and fine house.

Turn left into AVOCADO LANE where there are properties with broad acres and immaculate avocado orchards, on the corner of Honeyeater Lane an interesting garden being developed with large screens for climbers. Open to visitors when the sign is out.

Lot 11 Kurrawong, nice new garden and No.7, lovely garden overlooking water, on the right the Tranquil Park Resort where they offer accommodation and meals.

In Mountain View Road, a really lovely looking old garden, then the Mountain View Restaurant where they serve morning and afternoon teas, lunches, and dinner on Saturday night. On the left a fine stand of Bunya Pines and a sweet, well hidden cottage.

MARY CAIRNCROSS PARK, where they have plenty of picnic tables and wonderful walks through the rainforest.

Further on MARY CAIRNCROSS AVENUE and MARY CAIRNCROSS DRIVE, many fine houses and gardens here. No.35 a charming colonial style house set off perfectly with period fences and good choice of plants. On the right the Orchid Nursery, a most interesting place, as they also sell opals. Orchids for sale although they do specialise in cut orchid flowers. A most delightful family who will give you a welcome. No.28 Brigadoon, charming landscaping and choice of plants, No.8 and No.12 very interesting although difficult to see No.12.

MALENY VISTA

No.7. Newish house with very attractive garden with a mass of shrubs, trees and plants. A beautiful Lilli-Pilli tree in flower in March, large vegie garden and excellent landscaping and interesting use of natives and exotics. Open when sign out.

MCCARTHYS ROAD

Turn left into McCarthys Road from the Landsborough Road end and on the right-hand side a very nice garden. Continuing along this road there are some very fine and large gardens, mainly on the left-hand side.

The Daylily Nursery is on the left, this is a specialist nursery where a very wide range of daylilies can be purchased, during June 1988 the nursery is to be relocated to Policemans Spur Road, Wootha. McCarthy's Road joins Mountain View Road.

7 Maleny Vista is the house that belongs to Pat Powell referenced to in the section Maleny Vista
